Certificate

Dear Friend,

Are you ready for a more rewarding career?

Do you want a job that offers not only a great income but personal satisfaction, too? One that puts a smile on your face?

If so, Dental Assisting is for you!

Take pride in your career.

Dental Assisting is a rewarding and meaningful career. As a Dental Assistant, you can give back to your community. You can go home each day knowing you have made a real difference in the lives of your family, friends and neighbors.

It's true! The dental care you help provide improves people's health and self-confidence. You and the dental care team clean, straighten, heal and brighten smiles...every day!

That's something to be proud of.

And the rewards don't stop there...

Dental Assisting is an exciting career full of new challenges. Since you see different patients each day, no two days are alike.

Plus, Dental Assistants work in nearly every area of the dental office. Today, you could be helping the dentist clean teeth and fill cavities. And tomorrow...you're making molds of teeth and scheduling appointments.

Each day is unique!

And with so much variety, there are plenty of options for professional development.

Discover your future in the exciting world of dentistry!

Many Dental Assistants specialize in working side-by-side with the dentist. This "four-handed dentistry" means better and faster service for each patient. (Some offices even hire extra Dental

Assistants so they can provide “six-handed dentistry”!)

Another popular focus is lab work. These Dental Assistants concentrate on precision tasks like making crowns for patients and sterilizing instruments.

Other Dental Assistants work in the front office. They oversee important business tasks like greeting patients, processing payments and handling insurance claims.

Whatever your interests and strengths, there is a place in the dental office for you!

Dental Assistants are in demand!

The job outlook for qualified Dental Assistants is excellent. In fact, the U.S. Department of Labor expects employment for Dental Assistants to grow much faster than the average for all occupations.

The demand is so high because dentists have found that Dental Assistants have a very positive impact on the success of their offices. Patient care improves. Costs go down. And everyone — patients and staff alike — enjoy the personal attention and support Dental Assistants provide.

It’s a win-win situation!

Plus, as a qualified Dental Assistant, you can earn up to \$40,000 a year with experience! And many Dental Assistants also enjoy flexibility in their work schedules.

Imagine the difference a career like this could make in your life!

The training you need to succeed...

Our nationally accredited Dental Assistant Course will prepare you to start a career that truly makes a difference in people’s lives, including your own! You’ll get five packs of instruction — a total of 31 valuable lessons!—that cover everything you need to know. You’ll discover how Professional Dental Assistants...
